

Fat Burner

# FAT BURNER

The active ingredients of Fat Burner acts as a powerful treatment to reduce cellulite, activates lipolysis drains and reduce the skin flaccidity for the best slimming results.

# Cellulite

Cellulite results from changes to the microcirculation in which the fat cells are stimulated to synthesize and accumulate higher quantities of triglycerides, causing the cell to increase in size and the resulting tension in the fabric of the perilobular connective tissue. When the fat lobules become overloaded, cause an irregular appearance on the skin surface.

# Benefits

- ▶ Helps to reduce the cellulite;
- ▶ Activate the lipolysis helping fights against accumulated fat deposits;
- ▶ Reduce the skin flaccidity;
- ▶ Helps fortifies the blood vessels and microcirculation;
- ▶ Reduce water retention.

# Active Ingredients

## ▶ **CAFFEINE**

Caffeine ampoules assist in the reduction of the appearance of cellulite and localized fat. Its lipolytic properties and high absorption power promote better results in the treatments. It improves the blood flow, stimulates return of spontaneous circulation and consequently localized tissue drainage.

## ▶ **ORGANIC SILICON**

Organic Silicon smoothes, tones and lifts the skin, slowing down the ageing process.

## ▶ **CENTELLA ASIATICA EXTRACT**

It helps stimulate the synthesis of the skin supporting fibers, such as collagen and elastin, providing firmness and toning to tissues. It regulates, normalizes and stimulates the cellular metabolism, helping to reduce the proliferation of fibroblasts. It is indicated to assist in fighting against aging, cellulite and flaccidity. It is an excellent regenerator and moisturizer.

## ▶ **HYALURONIDASE**

It is used to depolymerize glycosaminoglycans and also as a powerful diffuser. It acts directly on the elimination of water retention. It exerts a restructuring action on the connective tissue and rebalances the skin affected by hydrolipodystrophy.

# Application

- ▶ Cleanse the skin properly follow MCCM products recommendation;
- ▶ Dilute 5cc of Fat Burner with 5cc of Phosphatidylcholine
- ▶ Inject 6 – 13 mm deep in the area to be treated.
- ▶ One session every two weeks – Recommended 4 – 6 sessions.
